A MAKEUP GUIDE FOR WARM COLOURING

Makeup is most flattering when it harmonises with your natural colouring.

When your skin has a warm undertone, colours with coral, peach, golden, tomato or chocolate bases tend to look more natural and balanced. They enhance your features without making your complexion appear yellow, orange, dull or overly flushed.

The Warm Edit brings together complexion products, lip colours, eye colours and finishing products designed to complement cool colouring.
Use this guide as a starting point. Your ideal shades will also depend on your value, colour intensity and individual skin tone.

INTENSITY

Intensity refers to how bright or muted your colouring is.
If your colouring is soft, choose smoky, muted and softer products.
If your colouring is bright, choose clearer colours or softer if you prefer a more natural look.

PALETTE INTENSITY PROPERTIES GUIDE

	Brighter	Softer
Light	Zesty · Exquisite	Spicy · Intriguing
Medium	Radiant	
Dark	Rich · Opulent	Exotic · Engimatic

HOW TO USE THIS GUIDE

Your most flattering makeup should relate to three elements of your colouring, Intensity, Undertone and Value:

UNDERTONE - YOUR UNDERTONE IS WARM

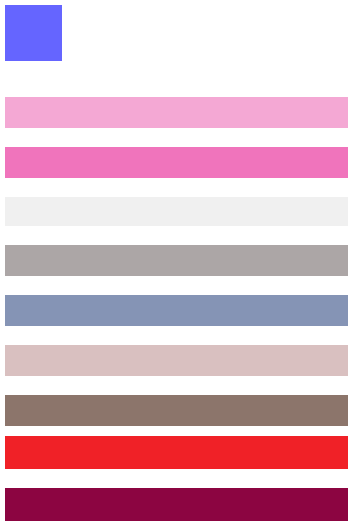

Look For

Warm colours:
Coral
Peach
Golds
Bronze
Olives
Camels
Warm Browns
Warm Reds
Burnt Burgundy

Avoid

Cool Colours:
Pink
Rose
Silver
Grey
Blue
Rose Beige
Cool Browns
Cool Reds
Maroon

VALUE

Value refers to how light or dark your colouring is.

LIGHT COLOURING

Choose lighter, softer shades that do not overpower your features.

MEDIUM COLOURING

Choose shades with moderate depth and definition.

DARK COLOURING

Choose deeper colours that create enough contrast and visual balance.

FOUNDATION

The right foundation product should disappear into your skin rather than sitting visibly on top of it. Always match foundation to the skin around your jawline or upper chest (if it's differnt from your face colour). Do not select foundation based only on its shade name.

ABOUT OUR MAKEUP RANGE

All products include Clean ingredients

- Vegan and cruelty-free
- GMO-free
- Gluten-free
- Not tested on animals
- PFAS-free (Per- and Polyfluoroalkyl Substances)
- Formula includes natural/naturally derived ingredients
- Free from parabens, sulfates, PEGs, and synthetic fragrances
- Formulated with skin-loving natural oils and butters
- Gentle, non-comedogenic, suitable for sensitive skin
- Plant-based emulsifier system
- Clean mineral pigments
- Contains Certified Organic ingredients
- 100% nano-free
- Sustainably and ethically sourced mica pigments
- Australian made - we source our makeup from a local Australian manufacturer

SHELF LIFE

Liquid Products - 12-month shelf life period after opening (BB Creams, Liquid Foundation, Illuminators, Concealers, Long Wear Lipsticks, Pencils, Primers, Lip Gloss & Oil)

Pressed Powder Products - 24-month shelf life period after opening (Setting powder, Bronzers, Mineral powder foundations, Eyeshadows, Blush, Brow dust)

Product shelf life may be extended if products are kept in a cool environment

PRIMERS

Create the perfect canvas with our Primer Gels, a lightweight, natural formulations designed to smooth the appearance of the skin and prepare it for flawless foundation application. These refreshing gel textures glide effortlessly over the complexion, helping to refine skin texture without feeling heavy or drying.

OPTIONS:

- Mint Primer
- Translucent Primer
- Eye and Lip Primer

Eye and Lip Primer creates a base to make eyeshadows and lipsticks last longer without wearing off or slipping

CHOOSING YOUR PRIMER

Product	Shade / Type	Best for
Mineral Setting Powder Pressed	Translucent	All warm palettes, all skin tones
Eye & Lip Primer	Translucent	All warm palettes
Mattifying Primer Gel Cream	Translucent or Mint	Combination to oily skin. Mint neutralises redness.
Wrinkle Blur Primer Gel Cream	Translucent or Mint	Normal to dry, mature skin. Mint for ruddiness.

BB CREAMS

Mineral BB Cream, a silky, breathable formula that combines sheer coverage with active skincare benefits. Enriched with nourishing plant oils, botanical extracts, and vitamin-rich ingredients, this beauty balm is designed to even out skin tone while hydrating, soothing, and protecting your complexion.

- BBC05 Neutral Light
- BBC08 Peach
- BBC10 Neutral
- BBC12 Cool Fawn
- BBC13 Medium
- BBC18 Cafe au lait

Ingredients

Natural Mineral Tint – Lightly pigmented with earth-derived Mica, Titanium Dioxide & Iron Oxides for a soft, luminous finish that enhances your natural glow. Gentle Sun Protection – Zinc Oxide.
Nourishing Oils – Sweet Almond & Apricot Kernel Oils help to soften and replenish skin without clogging pores,
Vitamin Boosted – Infused with skin-loving Niacinamide (Vitamin B3), Panthenol (Vitamin B5), Vitamin E, and Retinyl Palmitate (Vitamin A) to support a smoother, healthier, more radiant complexion.
Hydration Heroes – Powered by Sodium Hyaluronate & Sodium PCA, this BB cream locks in moisture to keep skin supple and refreshed throughout the day.
Soothing Botanicals – With calming Rosemary Leaf Extract and skin-conditioning Xanthan Gum, it's as kind to your skin as it is effective.

LONGWEAR LIQUID FOUNDATIONS

Experience skin that looks as good as it feels with our Long Wear Liquid Foundation, a breathable, long-lasting formula crafted to deliver buildable coverage, a smooth satin-matte finish, and all-day wear without compromising skin health.

Formulated with a curated blend of nourishing botanical oils, soft-focus mineral pigments, and a silicone-enhanced base, this foundation glides on effortlessly and stays put, no caking, no creasing.

- LWLF 05 Light Ivory
- LWLF 08 Peach Glow
- LWLF 08.5 Lightly Beige
- LWLF 09.5 Warm Beige
- LWLF 10 Delicate Cool
- LWLF 11 Light Cool
- LWLF 12 Rose Beige
- LWLF 13 Neutral Beige
- LWLF 14 Summer Tan
- LWLF 19 Warm Tan

Real Skin Swatch

Please note that colours dry slightly darker, so match to the dry colour not wet.

Ingredients

Long-Wear Technology – Powered by Polymethylsilsesquioxane and Dimethicone, this foundation offers lasting coverage and a smooth, natural finish that resists humidity, oil, and transfer.

Botanical Base – A nourishing blend of Jojoba, Avocado, Soybean, and Evening Primrose Oils helps soften and protect the skin barrier while delivering a radiant, skin-like glow.

Hydration + Comfort – Infused with Rose Hydrosol, Glycerine, and Xanthan Gum to support lasting hydration and a comfortable, non-drying feel throughout the day.

Vitamin-Rich Protection – With Vitamin E, Grapefruit Seed Extract, and soothing essential oils like Geranium, Rosewood, and Mandarin, your skin is shielded from environmental stressors while being gently balanced.

Naturally Tinted – Tinted with Titanium Dioxide, Iron Oxides, and Ultramarines to match a wide range of skin tones with clean, mineral-derived colour.

Why You'll Love It

Buildable medium-to-full coverage. Smooth, soft-focus finish. Long wear without heaviness. Clean, plant-enriched formula. No synthetic fragrance. Gentle and suitable for most skin types.

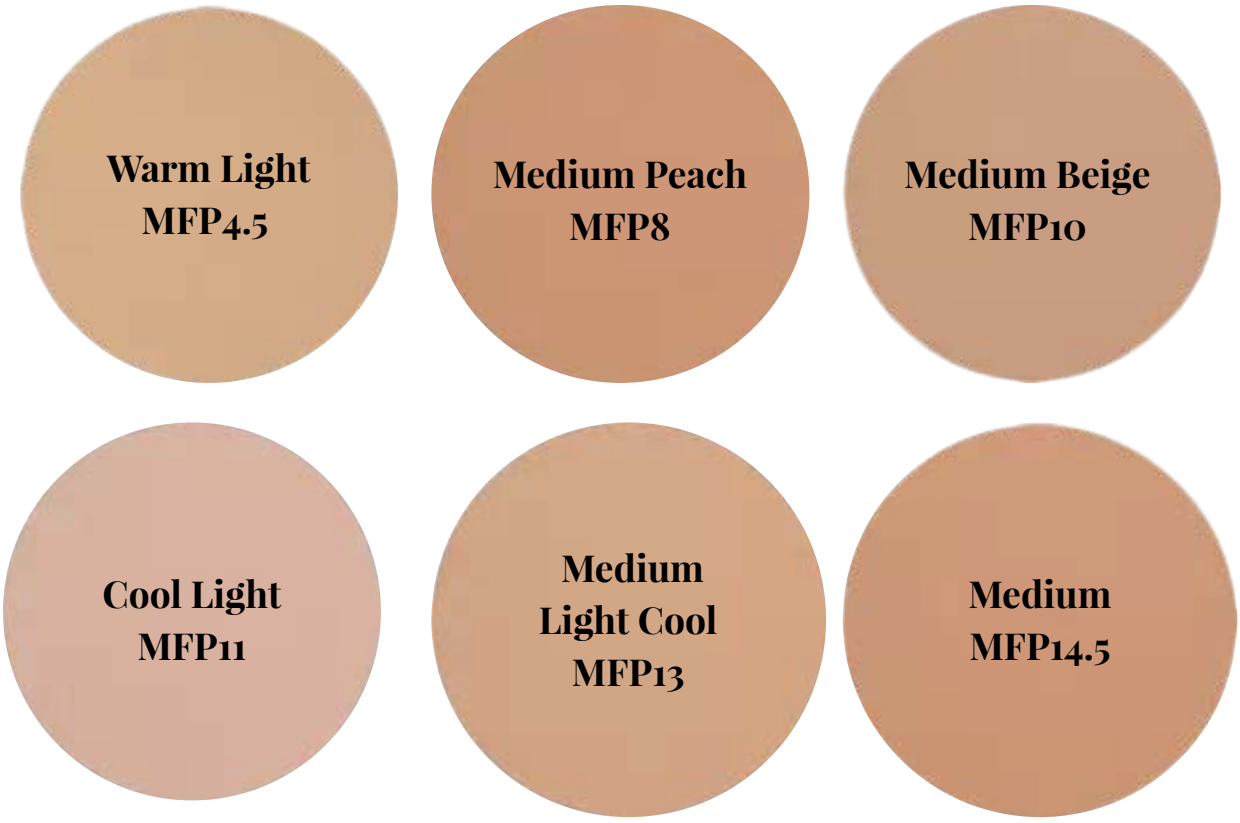

Find your shade and enjoy a foundation that works with your skin, not against it, combining natural radiance, botanical care, and lasting wear in every pump.

MINERAL POWDER FOUNDATION

Mineral powder foundation provides lightweight, buildable coverage with a soft and natural finish.

- MFP4.5 Warm Light
- MFP8 Medium Peach

WHAT COLOUR EYESHADOW TO CHOOSE BASED ON YOUR EYE COLOUR

Blue eyes	Gold, Copper, Peach, Apricot, Coral
Brown eyes	Olive Green, Warm Navy, Brown, Coral, Copper
Green/Hazel eyes	Plum, Grey Green, Brown

Ingredients in all Eyeshadows, Brow Dusts, Blush and Bronzer products
Zinc Stearate is a water-repellent, protective agent used in powders and ointments in the treatment of eczema, acne, and other skin concerns. With an excellent EWG* Green Rating of 2
Zea Mays (Corn) Starch functions as a multi-purpose ingredient, acting as an absorbent, thickener, and film-forming agent. With an excellent EWG* Green Rating of 1
Zinc Oxide is a mineral ingredient used for its protective, soothing, and sun-protective properties, acting as a sunscreen ingredient, a colourant, and a thickening agent. With an excellent EWG* Green Rating of 1-2
Ethyl Macadamiate softens and conditions plus helps prevent moisture loss and is used as an alternative to silicone oils normally found in pressed cosmetic products. With an excellent EWG* Green Rating of 1
Jojoba Esters is derived from jojoba oil, a liquid wax extracted from the seeds of the jojoba plant, they mimic the skin's natural oils, providing excellent moisturization without greasiness. With an excellent EWG* Green Rating of 1
Tocopherol (Vitamin E Natural) is an active form of vitamin E that is truly a magical ingredient in skin care and cosmetics, it conditions the skin deeply and acts as an antioxidant. With an excellent EWG* Green Rating of 2
Lauroyl Lysine an amino acid derivative, it is a common cosmetic ingredient used as a skin-softening agent, contributing to a silky feel on the skin. With an excellent EWG* Green Rating of 1
Malic Acid is a naturally occurring alpha-hydroxy acid (AHA) found in fruits like apples, and is used for its exfoliating and skin-enhancing properties, helping to improve skin texture and tone. With an excellent EWG* Green Rating of 1

MASCARA

Mascara adds definition to the eyes and should relate to the natural depth and contrast of your colouring.

Ingredients in Lipsticks, Lip Liners and Eyeliners
Our carefully selected blend of natural and nourishing ingredients helps keep lips soft, hydrated, and protected throughout wear.
Castor Oil Rich in vitamins, monounsaturated fatty acids, ricinoleic acid and antioxidants. Castor Oil helps to prevent moisture loss, keeps lips hydrated, and offers protection against dryness and chapping.
Shea Butter Forms a protective barrier against environmental stressors. It soothes and nourishes irritated lips, helping to prevent dryness and cracking.
Jojoba Oil Known for its moisturising and protective benefits, Jojoba Oil closely mimics the skin's natural oils. It provides deep hydration and helps combat dryness and flakiness.
Vitamin E A powerful antioxidant that helps neutralise free radicals caused by sun exposure and environmental pollutants, supporting healthy, resilient lips.
Ascorbyl Palmitate A stable, fat-soluble form of Vitamin C that works as an antioxidant and skin-conditioning agent, supporting lip health and radiance.
Octyldodecanol Adds a smooth, silky texture to the lipstick while helping to soften and moisturise lips. It forms a protective layer, minimising moisture loss and leaving lips feeling supple and hydrated.
Ceresin Wax Selected for its smooth texture and stability, it helps create a creamy application while supporting long-lasting colour and shape retention.
Candelilla Wax Sourced from the candelilla shrub, this natural wax acts as an emollient and stabiliser. It provides a smooth application, glossy finish, and enhances the lipstick's hold and water resistance.
Carnauba Wax Adds structure, shine and heat resistance. It acts as a film-former, creating a protective layer on the lips while stabilising and thickening the formula, reducing the risk of melting in warmer climates.
Caprylic/Capric Triglyceride A lightweight emollient that improves product texture and moisturises the lips. It ensures a smooth, non-greasy application and helps extend the lipstick's shelf life by protecting other ingredients from oxidation.
Zea Mays (Corn Starch) Acts as a thickening agent that enhances spreadability and gives a soft, silky feel on the lips. It can also absorb excess oil and moisture, helping to reduce shine and tackiness.
Cetyl Alcohol: A multi-functional ingredient that works as an emollient, emulsifier and thickener. It improves the texture and stability of the lipstick while supporting its moisturising benefits.

LIPGLOSS

Cool lipgloss adds shine and can be worn alone or layered over lipstick.
